The Automatic Sealing Burial Vault

MORE
BEAUTIFUL
THAN STONE
OR STEEL...AS
ENDURING
AS THE
AGES

Made of reinforced concrete, with a mineral glaze that makes it impervious to moisture or glass. The Automatic seal cannot fail, and water can never enter under any conditions. The only vault that will protect casket perfectly forever.

Don't use the perishable wooden box which soon crushes under pressure, or jointed vaults, which cannot be made tight and soon fill with the earth.

ASK YOUR UNDERTAKER about the Automatic Sealing Burial Vault, and let him demonstrate the automatic seal with model which he has. You'll be pleased with perfection of this vault, and surprised at its low cost. Should be used for every burial.

Building Remodeled

The Hoskinson building on the corner of Grand and Third Avenues, the interior of which was completely destroyed by fire a few weeks ago, is being rebuilt and remodeled. John and Fred Mosher have the work in charge.

This building, which contained the office of J. J. Jeffrey, the billiard hall occupied by Guy Guts, Joe Siterley's restaurant, and Mosher's photograph gallery, will be greatly improved both on the exterior and interior, and when complete will make an excellent appearing business corner. A new corner entrance will be put in.

It is not known as yet just who the occupants of the new building will be.

Comic Opera Pleases

A crowded house saw "The Cat and the Fiddle," at Daly's Theatre Friday night, a musical extravaganza involving one of the wildest mixtures of mystery and mirth ever staged here. Every one of the eighteen scenes was curious and entertaining, and the characters, including the well known Harry Watson as Happy, a child of fortune, kept the audience in perpetual merriment. Wild and mystic scenery, with rare and unlooked for changes and surprises, added much to the success of the production.

Mrs. E. Griswold and Miss Vera Griswold of Tomah, who have been guests at the Mentor Gordon home the past month, left Tuesday for their home.

Concrete Vaults Produced by Carey Plant

The manufacture of concrete burial vaults is practically a new thing in this part of the country, and, although the Carey Concrete Company, of this city, has manufactured these vaults for only a month, the idea is commanding considerable attention.

The variety which is now being put out by the local factory, is one which W. E. Carey has had in mind for a long time, but due to the fact that the Automatic Sealing Vault company, of Peru, Indiana, obstinately persisted in selling the mould on a royalty basis, which seemed rather unfair, the making of this article was delayed. The Indiana company was finally induced, after a six months' controversy, to give up the idea of royalty and come to the terms demanded.

Among the many varieties, the Automatic Sealing vault, is considered by authorities to be the only absolutely safe one, for the reason that no fresh cement is required to close the lid water-tight. It is said that this variety is the only one which possesses that important feature, and those who are concrete specialists are well acquainted with the dangers arising from the use of fresh cement in joining two pieces of concrete already cured. This, says Mr. Carey, is why the local concern finally decided upon the Automatic Sealing vault in preference to all others considered.

One of the most encouraging things that can be said for this new project is that, after testing the thing thoroughly, the undertakers of the city stand ready to recommend it as well as to demonstrate the features of the vault with a miniature apparatus.

The mould used in the manufacture of this article is adjustable, being capable of turning out seven different sizes. All of these sizes are kept in stock at the Carey plant, finished in a soft creamy white, with a true even surface, which makes the vault beautiful indeed in appearance.

Being constantly engaged in concrete work, attending every concrete show that is held, and taking all concrete journals published, Mr. Carey is well enabled to pass judgment upon the merits of the style of vault which he has chosen to manufacture. His thorough knowledge of the business gives him a good opportunity to apply the best methods in carrying out his project, and although it has been less than a month since the first vault was produced, the work is already attracting the attention of the city.

Mr. Carey spent a day in Stevens Point last week, and while there secured three nice orders for residence work. In talking over modern methods of construction, he declared that people are waking up to the superiority of concrete buildings over the frame ones. Even the stucco will, according to Mr. Carey, soon be applied to the concrete wall almost altogether, because of the fact that the stucco and concrete, being of the same material, will contract and expand identically, thus doing away with the inevitable danger of cracking when applied to the wood lath.

AUTO FACTORY AROUSES INTEREST.

Considerable interest has been shown among the local business men, concerning the proposed organization of a company for the manufacture of automobiles. There seems to be no doubt but that the thing can be financed, as there are already a large number who have expressed a willingness to invest if the proposition looks at all favorable.

It is expected that the out of town parties who have made the car, will be in the city any day for the purpose of showing what the machine is like.

Vine Street Widened.

During the past week men have been at work tearing up the south concrete walk on Vine street, from Second street to the bridge. A narrower side walk is being constructed thus making the road the same width as the upper portion of the street. The four feet of concrete walk was decided to the city by F. J. Wood on condition that a new sidewalk be laid the entire frontage on Vine street.

It is expected that Oak street from McCarthy's blacksmith shop to Rowland's store will undergo the same treatment soon, which will necessitate the moving of Dr. Norton's residence, Geo. W. Baker's store room, and the saloon building which stands on the corner.

The work of widening these streets not only enhances their appearance, but also makes them more convenient and less dangerous for pedestrians and vehicles.

The improvement of these two streets is only a part of the real work contemplated by the city, as it is expected that next year will see the wagon bridge widened and lowered and some of the business streets paved.

I. O. O. F. Hall Nearly Complete

If nothing unforeseen occurs, the Odd Fellows new building will be complete and ready for occupancy by the middle of September. The heavy work on the structure is practically over with, and the building now stands ready for flooring and finishing. All of the floors will be of hard maple and the ceilings of Georgia pine. The spacious hall on the second floor, which is twenty-eight by sixty feet in dimensions, will be one of the finest of its kind in the city, and an excellent place for the lodge to hold its meetings and its social functions.

The first floor will be occupied by H. F. Gaulke, who has had his grocery store in the place just adjacent for the past few years.

The new building is being put up by the Weinberg Construction company; Staeb & Naiswick have done the wiring, and J. E. Farley will have the plumbing in charge.

Mr. Mead's New Home.

The new home of George W. Mead, which is being built on Belle Isle under the supervision of Contractor A. F. Billmeyer, is now well under way. The foundations of the building are being constructed of local sand stone, trimmed with brown sand stone quarried at Port Wing, near Lake Superior. The latter material is taken from Port Wing by way of the Great Lakes to Milwaukee where it is cut, fitted, and dressed. The exterior walls will be finished in oriental brick.

The location of Mr. Mead's new home is unsurpassed, centrally located, yet in one of the most charming nature spots which the Wisconsin river has to offer. The premises, when cleared, will be beautifully arranged. A drive way with a porte cochere, four large verandas, and other things necessary to the comfort and convenience of a modern home will be built.

S. D. A. Conference

The Wisconsin Tract Society and State Conference headquarters, of this city, are being represented by almost their entire force at Ladysmith from August 22 to 27, at the regular annual conference for Northern Wisconsin. All camp ground outfits held by the Seventh Day Adventists of Grand Rapids were shipped to the conference last week.

W. H. Thurston, who has his headquarters in Grand Rapids, will have charge, and it is expected that many ministers from all parts of the state will be present. Two general workers, from general headquarters at Washington, I. A. Ford, and H. R. Johnson, will be there to take an active part.

Funeral of Jasper Crotteau

The funeral services of Jasper Crotteau, the well known Grand Rapids resident who died in Washington last week, were held Thursday afternoon from the home of Howard Crotteau. Rev. Fred Staff officiated, and music was furnished by Mrs. Guy Nash, Miss Verna Lyon and Miss Cecil Ekert.

The services at the grave were under the auspices of the I. O. O. F.

McGovern Interviewed.

Messrs. John Farrah and D. D. Conway went to the state capital last Friday in behalf of Attorney George L. Williams, who is considered as a probable successor to the late Judge O. M. Webb. They carried with them a petition to the Governor signed by practically the entire bar of Wood County.

The Marshfield Fair

The ninth annual Central Wisconsin State Fair at Marshfield began yesterday with a full line of farm exhibits, music, races and sight-seeing. Friday is Grand Rapids day, and it is expected that a large number from this city will attend. The local band will be there to furnish music for the day.

Meeting of Cranberry Growers

The twenty-fourth annual meeting of the Wisconsin State Cranberry Growers Association was held August 15th at the state experimental station at Cranmore. On account of the funeral of Judge O. M. Webb the attendance was rather slack, but an exceedingly interesting program was given, in addition to a big dinner at noon.

Chas. L. Lewis Jr., of St. Paul, who was associated with the experimental station two years ago, and who has recently returned after a year spent on the marshes in the east, gave a very interesting address. Mr. Lewis has worked on the eastern marshes as a common laborer, learning carefully every detail in the cranberry business, and his speech showed a thorough knowledge of berry raising. He is a son of Judge Lewis, of St. Paul, and has just organized a company to have charge of a big marsh at Spooner.

An interesting paper was read by President Andrew Searles, of the association, who is one of the most successful growers in this section of the country. Mr. Searles described his methods of raising the fruit and those who heard him report that his paper was exceedingly instructive.

Among those in attendance at the meeting, was Charles Schlosberg, of Chicago, representative of the American Cranberry Exchange.

Auto Collides with Pump.

Losing complete control of his automobile while spinning up North Third street, O. M. Menard suddenly entered the back door yard of Mrs. Conroy, at the corner of Oak and Third, tearing up a strong iron pump and almost crashing through the wall of the house. Strange to say, neither car nor driver were injured, and within a few minutes some of the boys near at hand, had backed the machine into the road and had taken it up the hill.

Mr. Menard who recently moved from Chicago to a farm near Grand Rapids, had just purchased the auto from a party in Stevens Point, and was driving it from Huntington's shop. Having had no experience as a chauffeur, his accident was inevitable.

Depot to be Moved.

Wm. O'Brien, of Milwaukee, head carpenter for the O. M. & St. P. railroad, arrived in Grand Rapids Monday for the purpose of laying out stakes for the moving of the St. Paul depot. This work will probably be started within a few days.

The old structure will be moved to the place just north of the water tank, thus making it necessary to take away a few of the rickety sheds and sheds in that vicinity.

Plans for the construction of the new St. Paul depot have been laid up indefinitely on account of the union depot proposition.

Youthful Burglars Caught.

Breaking through the cellar of Mrs. Minnie Hannemann's home, corner of Nineteenth and Baker streets, two young lads Leonard Johnson, age 11, and Alvin Krouser, age 10, rummaged through the entire house in a search for booty. The boys were arrested Monday morning and brought before Judge Conway, at which time young Johnson admitted other thefts while his accomplice denied having committed any other misdemeanors. The latter was released, and the older of the two was committed to the Waukesha reformatory.

The New Church

It is expected that the auditorium of the new Congregational church, on the east side, will be ready for church services about September first. A few finishing touches will then remain, but the building will be completed for all necessary use at that time.

A. F. Billmeyer has engaged George Moulton and a crew of men to plaster the main room of the church. This portion of the work will probably be through within a week.

Merrill Banks Open Evenings

In order to give business men the opportunity to make deposits after the heaviest bulk of trade is transacted, and to make it possible for laboring men to visit the banks after working hours, the banks of Merrill have decided to open their doors for business certain nights in the week. The system is a new and novel one, and there is no question but that it will be a paying proposition.

Tigress Eats Her Young.

Considerable interest has been aroused over a little incident which occurred at Rhinelander this month, in the animal quarters of Gollmar Brothers' circus. A tigress, gave birth to three tigers and before the cubs were aware, the animal had eaten two of her young. The third was removed from the cage before the mother could devour it, but the baby tiger was already so debilitated by the sharp claws of its mother that it died soon after.

MARRIAGE LICENSES

The following marriage licenses were issued by County Clerk Eberhardt during the past week:

Erwin A. Peart to Bessie M. Hutchins both of Pittsville.

George C. Poole of Chicago to J. Agnes Mulroy of Grand Rapids.

Wm. H. Stine to Theo Stover both of Pittsville.

Bancroft Tigers Retaliate.

In return for their defeat on their own diamond on the 13th of August, the Bancroft Tigers came up Sunday and beat the Cubs by a score of 7 to 1, getting twelve hits from Fairmer. The locals say that hard luck and a few expensive errors lost the game.

STEVENS POINT BOWS TO THE LOCALS.

Those who saw the game Sunday afternoon at Stevens Point say that it was one of the fastest and most exciting contests of the season. Large crowds assembled to see the Point go under by a 4 to 1 score, made possible by 9 hits allowed by VanPatter, the popular young twirler.

Nelson threw for Grand Rapids, giving the opponents but one hit, which is credited to Trageser, formerly of the local team. One of the features of the game was a pretty three bagger by Moller. Art Jensen, the new Grand Rapids first baseman, made good in every sense of the word, pulling in everything that came his way, with the dexterity of an old timer.

Today is Boomer day with the Stevens Point aggregation again in our midst. Everyone is looking for a successful day. Two more games between the Point and the Rapids are yet to be played, the first one next Sunday on the home field, and the last next Wednesday at Stevens Point.—Boomer day for them.

Moore Brings Home Canadian Wheat.

J. F. Moore returned home Friday after a ten days ramble in Canada, paying brief visits at Moosejaw and Outlook, in Saskatchewan. In telling of his trip, Mr. Moore stated that he was exceedingly well pleased with the country, and that the Canadian crops are excellent, especially the wheat, oats and flax. He left a nice bunch of what is known as "red fife hard wheat," which was raised in a 100 acre wheat field producing forty bushels to the acre. This specimen is on exhibition at the Tribune office for those who are interested in seeing what good Canadian grain is like.

Was Eighty Years Old Saturday

"Uncle" Dan Rozin, of Rudolph, was a business caller in this city last Saturday. Incidentally holding a friendly chat with his Grand Rapids friends in honor of his birthday. Uncle Dan was eighty years old at seven o'clock Saturday morning and says that he feels as hale and hearty as ever. He has lived here in Wood County since 1854 and has been a prosperous farmer in Rudolph for a great many years.

Mrs. Rozin, who is seven years younger than her husband, has not been feeling very strong of late.

The Carnival.

The Great Capital City Amusement Company paid Grand Rapids a visit last week Friday and Saturday, bringing with them an elaborate line of sides, freaks, free attractions, and indoor performances. As in previous years the grounds were crowded with interested spectators "just to see what it was like." The amusement wonder exhibited his misfortune with surprising willingness, the frog-boy seemed well pleased with his many visitors, and the carnival as a whole appeared satisfied with the crowd.

Children's Bank Accounts

Let the children have bank accounts of their own. They will derive more pleasure from keeping the pennies and nickels to deposit, than from spending them for candy, and it will do them a thousand times more good.

The "Savings Bank Habit" formed in youth will prove valuable all through life. We are glad to encourage the children in every way possible.

VERSATILITY IN THE ARMY.

Is there anything that cannot be done by officers of the United States army? And done exceptionally well? There is nothing. For example, take Colonel Goethals and watch him construct the Panama Canal with ease and grace after various civilians had tried their hands at the job without achieving any glittering success. Then take the five bachelor lieutenants at Fort Berrien, Georgia, who gave a chaffing-dish party, the particulars of which we find in the Army and Navy Journal. It was a surprise party. It was given in the bachelors' club. The service publication which makes known the achievements of these heroes justly remarks that "a great deal of praise is due the bachelors for having given such an elaborate party without the assistance of the ladies of the post," says the Chicago News. For example: "The dining-room and den, in themselves very handsome, were lavishly decorated with carnations and ferns. The beautiful pale pink flowers were massed in profusion on the mantel and library table in the den. In the dining-room a large vase, filled with the same gorgeous flowers adorned the table. As a souvenir of the occasion a large bouquet, tied with pink tulle, was presented to each of the young ladies present. A delightful Welsh rabbit was served with dainty sandwiches, and a mild punch was served during the evening." Is it not plain that these bachelors are artists and poets as well as warriors? What bachelor outside the service could tie a bow of pink tulle around a bouquet? Doubtless, also, any one of the five, like Cyrano, could compose a ballad while preparing to transfix an enemy on the point of his service sword. Gentleman, a toast, standing, to the army men who can concoct a Welsh rabbit which will not kill either at close or long range.

"A little harmless flirting with nice people with whom you are acquainted will do much to rest the tired mind after the arduous duties of the school-room." This is one of the suggestions to young women schoolteachers made by an elderly lady on relinquishing her position as teacher in the Boston public schools after 40 years' service. "Be a live wire every minute, and don't eat too much," is another bit of advice. This kind of advice from a learned and experienced school "ma'am" will make most people "sit up and take notice," for in our opinion it is much worse than indifference, to say the least, says the New Orleans Picayune. As a cure for brain fog, flirting is entirely new to us, though some years ago we heard it highly recommended for other ailments, and we thought it pleasant to "take." Wonder how this teacher held her job for 40 years? She must have had a strange hold on it.

A Hindu philosopher and scholar who has been visiting this country declares we have all the heathens we can manage, at home, and that the money sent abroad to make converts is wasted and could be better spent in missionary work among the "Greeks at our own doors." He also made some caustic comments on practical Christianity in the United States. Sometimes the oriental mind displays unexpected but comprehensive accuracy of observation of Western superiority.

The object of the organization which calls itself the Non-Smokers of America is to secure the enforcement of laws, ordinances, regulations and rules against smoking in public places in the United States. The man who endeavored to incorporate it in New York Inclosed several distinguished educators. However, they were careless in drawing up their application. There was no statement from the would-be incorporators that they had not made application for incorporation before. For this reason, Judge Gleicher denied the application. But the non-smokers can begin over if they choose.

A Brooklyn woman refused to obey an order of the Supreme court to allow her divorced husband to visit their baby, and the justice whose authority was thus defied, asked: "What are we going to do about it?" Being a jurist of wide experience and knowledge of human nature, he admitted that all the courts going were no match for a woman once her mind was made up.

The amount collected at the port of New York from fines, penalties and forfeitures amounted to over \$2,000,000. Honestly, from this showing, is not only the best policy, but also the cheapest in the end.

IS VETOED BY TAFT

STATEHOOD BILL IS TURNED DOWN BECAUSE OF JUDICIAL RECALL.

PUTS SHACKLES ON JUDGES

Would Render Decisions Under Legalized Terrorism If Provision of Arizona Constitution Was in Force—May Try to Pass It Over Veto.

Washington, President Taft, in a special message to the house of representatives, vetoed the joint resolution providing for the admission of New Mexico and Arizona to statehood. His reason for exercising the executive power of veto was based on his thorough disapproval of the recall of judges clause in the Arizona constitution.

The fact that New Mexico's statehood was bound up with that of Arizona, and that neither territory could come into the Union at this time unless Congress or the joint resolution in congress could master the two-thirds vote necessary to adopt the resolution over the president's veto. This may be attempted.

The president did not spare words in condemning the recall feature of the Arizona constitution, which, he said, would compel judges to make their decisions "under legalized terrorism." The recall provision would operate against all elective officers of Arizona, including both county and state judges. When 25 per cent. of the voters of the previous election petitioned for a special election to remove an official such an election would be compulsory.

"This provision of the Arizona constitution," the president says, "in its application to county and state judges seems to me so perilous in its effect, so destructive of independence in the judiciary, so likely to subject the rights of the individual to the possible tyranny of a popular majority, and, therefore, to be so injurious to the cause of free government that I must disapprove a constitution containing it."

Much of the message was devoted to a discussion of the functions of courts. The president dwelt at length on the necessity for freedom of the judiciary as much as possible from political or popular influence. Referring to the recall provision, he asked: "Could there be a system more injuriously devised to subject judges to momentary gusts of popular passion than this?"

Grand Jury Returns First Degree True Bill—Miss Blinford Is Not Called.

Chesterfield Courthouse, Va.—A true bill charging murder in the first degree was returned by the grand jury at the Chesterfield circuit court against Henry Clay Beattie, Jr., of Richmond. He will be tried for his life as the alleged murderer of his young wife, victim of July 18.

The commonwealth decided that only four witnesses would be heard by the grand jury. They were Thomas E. Owen, uncle of Mrs. Beattie; P. Pettigrew, called to testify as to the finding of the single-barreled shotgun; Dr. Wilbur Mercer, who was on the Owen lawn when Beattie drove up with the body, and Paul Beattie, a cousin of the defendant.

Bonnie Blinford, the woman in the case, is smiling in an anteroom waiting to be called as a witness.

PRISONER SHOTS UP COURT

RIOTS IN ENGLAND

MOB ATTACKS TROOPS IN ATTEMPT TO RESCUE PRISONERS.

General Strike Is Declared on All Railway Lines in England—Many Hurt.

Liverpool.—Troops are pouring into the city to stop the reign of terror that exists here. The landing stage of transatlantic steamers is under heavy guard, which, it is declared, the strikers have threatened to destroy. Five prison vans, escorted by 60 hussars, which were carrying riot-prone prisoners from the police court to Waltham Jail, were attacked by 2,000 members of the rougher class in York street, in an attempt to rescue the prisoners. The mob attacked the soldiers with missiles of every description, and in defending themselves the hussars fired.

At first blanks were used, and then ball cartridges.

In this affray one man was killed and many persons were severely wounded.

Another, but less serious affray, in which the troops again were compelled to fire, took place in Bond street. Only a few persons were wounded.

At a meeting of the executives of the Amalgamated Society of Railway Servants, the Society of Locomotive Engineers and Firemen and the General Railway Workers' union, a resolution was unanimously adopted declaring a general railway strike throughout the whole United Kingdom.

OIL TRUST MUST STAND TRIAL

Indictment of 143 Counts for Rebates Held Good by United States Court.

Buffalo, N. Y.—Judge John R. Hazel in United States district court held that the Standard Oil company must stand trial at the next regular term on an indictment of 143 counts, charging acceptance of rebates from the Pennsylvania Railroad company and the New York Central Railroad company on shipments of petroleum from Olean, N. Y., to Burlington, Vt., in violation of the Elkins law.

One of the company's chief points of defense urged in its motion to dismiss was that the alleged offenses had all been disposed of in previous trials and that the company could not be placed in jeopardy for the same alleged offenses.

The government, through John Lord O'Brien, United States attorney, contended that each offense alleged in the indictment was a separate one. Judge Hazel sustained the government's contention.

GO'HAM FLYER IS WRECKED

Pennsylvania 18-Hour Train Ditched Near Fort Wayne, Ind.—Two Die, 30 Hurt.

Fort Wayne, Ind.—The Chicago-to-New York 18-hour Pennsylvania railroad train was wrecked at Swinney Park, a mile west of the Pennsylvania depot here. It jumped the track and struck a freight engine standing on the westbound track, killing three persons and injuring about thirty passengers severely, ten of them from Chicago.

Three local hospitals received the wounded as rapidly as they were taken from the wreckage. The flyer was an hour and ten minutes late and was running at 88 miles an hour. The cause had not been determined, but a new switch was recently put in at the point and to this is attributed the wreck.

STEPHENSON QUIZ IS VOTED

Resolution Sent to Committee to Provide Investigators' Expenses—Vindictive Sought.

Washington.—The election of Senator Isaac Stephenson of Wisconsin is to be investigated by the United States senate to determine whether it was brought about by bribery and corruption.

This action was unanimously decided by the senate following the submission of a recommendation that that effect by the committee on privileges and elections.

THREE SISTERS DROWNED

Brother Rescued by Boatman When Skiff Hit Sunken Dike and Capsized in Mississippi.

Alton, Ill.—Three sisters, Flora, Ella and Mary Brogley, of this city, aged eleven, fourteen and seventeen years respectively, were drowned in the Mississippi a mile south of Reble Station, Ill. Their skiff, in which five persons were riding, capsized when it struck a sunken dike and a dyke.

AVIATION WEEK IN CHICAGO

TWO AVIATORS DIE

BADGER IS CRUSHED BY MACHINE—JOHNSTONE IS DROWNED IN LAKE.

CHICAGO YOUTH DASHED INTO WATER When Engine Explodes in Air—Pittsburgh Aviator Killed When Biplane Collapsed.

Grand Park Aviation Field, Chicago.—In the presence of 500,000 people, two aviators, one the son of a Pittsburgh millionaire, the other the son of a Chicago physician, were dashed to their deaths.

One of the fatalities occurred on the lake. A few yards from the gates of the enclosure, when a biplane with huge spread of red wing, folded up like a jack knife and struck the earth with terrific force.

The second accident occurred at sunset when a graceful monoplane suddenly shot toward the lake from a height of 3,000 feet. As it neared the water its pilot tried to steer it upward, but the forces of gravitation were too potent. The wings collapsed, the engine exploded and the driver was either killed before he struck the water or drowned.

The dead: St. Croix Johnstone, a Chicago aviator, whose Meisant monoplane dived into the lake after a glide of 3,000 feet. It collapsed when its pilot tried to turn its course upward and its engine exploded. Johnstone had vanished when Robinson, in his hydroaeroplane, reached the wreck a minute later. He was either killed by the engine or drowned.

W. R. Badger, a Pittsburgh pilot and reputed millionaire, who sought to emulate the hair-raising exploits of Lincoln Beachey, his Baldwin "red devil" collapsed as Badger was making a spectacular dip not far above the lake. The engine struck the pilot, breaking his neck and crushing his skull. Badger died in St. Luke's hospital within half an hour.

The death of Johnstone was an unusual tragedy. The young aviator plunged to his fate before the eyes of his mother and wife, who were standing near the hangars, proudly watching his performances.

Grant Park Aviation Field, Chicago.—Smashing all American records for a day's flight, Alcock and Brown, flying the Vickers Vimy, crossed the Atlantic from Newfoundland to Ireland in 1919.

He completed the aeroplane dash across the prairies of Illinois in five hours and thirty-four minutes of flying time, the distance traveled between dawn and midnight being about 300 miles. The average speed of the journey was fifty-six miles an hour.

Aims at Harvester Concern.

Washington.—Another comprehensive investigation, this time into the affairs of the International Harvester company, will be under way during the next regular session of congress if a resolution introduced by Representative Foster of Illinois is passed by the house.

It asks an inquiry by a committee of nine members of the house, to be chosen in the same way as the committees of inquiry into the so-called steel and sugar trusts.

Volcano in Japan Erupts.

Yokohama, Japan.—The volcano, Mount Fuji, which has been dormant for many years, erupted last night. A large party of foreigners ascended the mountain during the night, and narrowly escaped the fumes from the crater.

Heads Fall at Federal Prison.

Leavenworth, Kan.—Acting on instructions from Attorney General Wickersham, R. W. McLaughry, warden of the federal prison here, has asked for the resignation of F. B. Rhine, superintendent of construction.

Fire Victims' Body Cremated.

London.—The body of James Lee Finney, the American actor who lost his life in the fire at the Carlton hotel last Wednesday evening, was cremated at Golders Green crematorium after a simple service.

Taft in Auto Accident.

Boston.—It became known in Washington that the president was in an automobile crash at Salem while out riding with Mrs. Taft and accompanied by Major Butt. The president's car struck an automobile carrying three women on the edge of Salem, but fortunately nobody was injured.

TAX COMMISSION TAKES UP NEW WORK

Over \$500,000 Is Collected by State During 1911.

TAXATION OF INHERITANCES

Seven and One-Half Per Cent. of the Money Received Is Payable to the County and State Will Get the Balance.

Madison.—The Wisconsin tax commission has energetically taken up the new work imposed upon it by the legislature in the administration of the inheritance tax law. The state last year collected over \$500,000 in taxes on inheritances and the indication was that nearly as large a sum will be received this year.

This money is clear "valve" for the state. The tax commission appointed Attorney John Harrington of Oshkosh as inheritance tax investigator, and he is devoting all of his time to his new work. The commission has just sent out a letter to county judges, public administrators and other officials, calling their attention to the provisions of the new laws recently passed respecting the administration of the new inheritance tax law. In this letter the commission says in part:

"Under the law, 7 1/2 per cent. of all inheritance taxes collected is payable to the county and the balance to the state. The law requires notice of the determination of inheritance taxes to be served upon the public administrator, who is supposed to investigate the facts in each estate with a view to securing the full payment of the tax. Similar notice is required to be served on the attorney general, who is primarily charged with the duty of protecting the interests of the state."

"The duties of the inheritance tax investigator are auxiliary to those of the public administrator. It is the duty of the public administrator to see that there be active and close cooperation between him and the public administrator in each county. As the first step towards such cooperation we desire to secure a complete list of the public administrators of the several counties and get into communication with them. If such officer has been appointed in your county, kindly report his name and address to this commission. If not, a suitable appointment should be made for that purpose without delay."

"The several county judges can materially aid in the administration of the inheritance tax law by the appointment of active and zealous public administrators and requiring them to investigate carefully the facts in each estate subject to the tax."

KING CORN

Bulletin number 208 of the Agricultural Experiment station contains among other interesting information, an exceedingly valuable account of the result of corn tests made in this state. The substance of these tests is embodied in the statement that corn has yielded as high as eighty-five bushels per acre in the central part of Wisconsin.

It is recalled that the average yield of yield throughout the county is only twenty-six bushels per acre, and that at forty bushels corn is one of the most profitable crops that can be raised, the significance of these figures is apparent. Corn occupies the first place among the cereals not only on account of the many uses to which it can be put, the ease with which it can be produced and the large returns which it can be expected for the labor of planting and cultivating, but also for the vitality it possesses above all the other grains of adapting itself to almost any variety of soil and climate.

It is also recalled that the average yield in Missouri and the row of states on the same parallel, but the largest yield ever recorded in this country was obtained in South Carolina. Florida is becoming a corn state, although a few years ago it was supposed to be beyond the southern limits of its growth. Connecticut is making records with it, as are also New Hampshire, Vermont and even a part of Maine.

The secret of this is the facility with which corn changes its form. The corn of Vermont does not resemble that of South Carolina nor does the South Carolina product closely resemble that of Kansas. The difference in each case is the result of the effort of the cereal to adapt itself to the locality. As it becomes adapted it becomes more prolific, until the limit of its productivity is reached.

What is that limit? Very Moore, a boy of fourteen, raised 228 bushels on a South Carolina acre. The 200 bushel limit has been passed frequently. Anywhere in the corn belt it is understood that a yield of a hundred bushels is possible. It depends upon the seed and the cultivation. Twenty years ago the South Carolina yield would have been an impossibility, because no variety had been developed to the peculiarities of that climate.

Twenty years hence, when the best varieties grown in this state have been developed and perfected, there is every reason to expect that a 200 bushel yield in other words, the state of Wisconsin in the greater corn belt. It is rapidly developing varieties that suit its soil and climate. Its yield per acre is already three times that of the average yield of the country. It possesses millions of acres of level fertile land, easily cultivated, and adapted to the growth of corn. The great king of American cereals is in the hands of the farmer, and every effort should be made to further his cause.

No More Poor Bridges.

With the beginning of the threatening season, news items recounting the details of accidents caused by weak bridges and heavy engines will begin to appear.

The size of traction engines used in threshing has been steadily increasing, and with this increase in the size of engine has increased the number of accidents due to weak bridges. The legislature of 1911 recognizing this, has enacted several laws designed to make the strength of bridges built in the future ample to take care of any increase in the loads they may be called upon to carry.

One of these (Chapter 642, Laws of 1911) provides that all iron, steel or concrete bridges with spans of more than four feet built or repaired in the state shall be designed to carry, without planking, all loads up to fifteen tons. All iron, steel or concrete culverts of four feet span or less, must be made safe for all loads up to eighteen tons.

The state aid law (Chapter 337, Laws of 1911) also contains provisions designed to improve the grade of bridges work. This law provides that the state shall contribute toward the cost of bridges built on state aid roads. In order to obtain state aid, these bridges must be designed by the State Highway Commission. This law also requires that the plans of all bridges built under state aid shall be approved by the Commission.

Another enactment (the amendment of Sec. 1318 of the Statutes) puts the cost of bridges entitled to receive state aid at a fixed figure (\$300 in towns valued at \$100,000 or more, and one-twentieth of one per cent in towns valued at less than \$100,000) that practically all bridges built in the future will be entitled to receive this aid.

By these enactments of the Legislature has imposed upon the commission the duty of inspecting the plans of practically every bridge built in the state. With this the grade of bridges built must improve. With a definite standard of strength for all roads, fixed by law, the commission will be in a position to stand good work. The old wooden bridges, which cause most of the accidents, are rapidly becoming a thing of the past. Replaced with structures of the strength demanded by the law, it should be only a few years until bridge accidents, now so frequent, will be entirely unknown.

Will War On Tubercular Cattle.

A systematic campaign for the eradication of tuberculosis from the dairy and beef herd of Wisconsin is contemplated by State Veterinarian H. A. Hartwig. No longer will the administration of tuberculin test be authorized by the department, said Dr. Hartwig, except at the hands of qualified persons. To get at the source of contamination as to get rid of responding individuals in the herd will be the aim of the department in the future, and to this end he will locate a deputy of the department in every part of the state. A searching civil service examination is to be first held to determine the fitness of candidates for permission to administer the test. Then instructions will be given that when herds are found to be infected a clinical examination of the individuals of the herd shall be made by a competent veterinarian to discover any tubercular animals. The tuberculin law, Dr. Hartwig thinks, will prove more satisfactory than the former regulation, in that while it does not make the test compulsory it offers to the owner greater incentive to operate with the department. The maximum compensation for condemned animals is raised from \$55 to \$60.

Then too, the doctor said that it would be the duty of the department to protect owners from needless sacrifice of valuable animals.

Dr. Hartwig further explained that while the law provides for an increased compensation for slaughtered animals, the present law is a poor one, in that it does not provide for the loss of the animal after July 1st, 1913. This will tend to put the herd owner on his guard, and this will tend to co-operation on the part of owners and as soon as cool weather comes the doctor expects a lively campaign.

Uncle Sam to Breed Horses
The man who predicted that the automobile would drive the horse out of the market was a poor guesser. Never before in the history of horse-flesh have horses commanded better prices than now and the shortage is so great it has been found difficult to supply the demand. The government, it is understood, is about to take a hand in the breeding, a thing that older countries have been doing these many years.

In practice by the department of agriculture and will consist of dividing the country into breeding districts, full blood sires of different breeds being furnished by the government. The government is to put in place an incentive in bringing back a farm enterprise that seems to have been overlooked in late years. In all new countries the horse has played a part in the development of the country, and the general scheme of settlement and that more attention should be paid to their breeding is apparent from their high price and scarcity in the markets.

NEKOOSA

(From the Times)
Prof. and Mrs. W. H. Guilford shook the dust of Nekoosa from their feet Monday night when they boarded the 10:45 St. Paul train, bound ultimately for McKenna, Wash. They go first to Nekoosa, where they are spending a few days visiting Mrs. Guilford's mother, Mrs. Coffman, thence to Plattville to visit the remainder of a week with Mr. Guilford's people.

Then, on Monday next, they depart on their long journey for McKenna, Wash., where they will locate temporarily. They expect, however, to locate permanently somewhere in the state of Washington.

Dr. W. P. Norton, N. S. of Grand Rapids was called to Colby, Wis., last week, to perform a delicate abdominal surgical operation on a valuable horse. The operation is known among the profession as double crypotidectomy (counting right).

He was assisted by Dr. A. J. Abbott of Marshfield. Some two months ago the Dr. performed exactly the same kind of an operation on horses of Wm. Henderson and Peter Graham, of Archdale, both making complete recovery.

Wednesday evening at 7:30 o'clock Miss Bernice Buchanan and Wm. Jaskowsky were united in wedlock, Rev. Geo. A. Hard performing the ceremony, which took place at the home of the bride's parents, Mr. and Mrs. John Buchanan. The young couple left on the 10:48 St. Paul train for a two weeks trip to Chicago, with the guests people and Almond with relatives of the bride. They will afterward be at home at the Congregational parsonage which they have furnished for occupancy.

Mr. Der, who with his two daughters, Miss Jessie and Mrs. Glen Hudson, left last week for the east, where they are under contract to do trick riding and conduct tandem, chariot and hippodrome races at the big eastern fairs, was seriously injured at Portage, Wis., recently.

\$6000.00 Crop Of Hay.

Grant County Herald—If anybody doubts the fertility of Grant county, the fact that big money can be made therefrom by the proper sort of management, he is referred to the remarkable showing by the crop of timothy that has just been harvested in the eighty acre tract lying within the northwestern city limits of Lancaster, belonging to Joe Wright.

This was seeded to timothy and Joe and his son, with other necessary help, have been making a showing there during the past week or more that is worthy of commendation and study.

This timothy was cut partially green and contrary to the usual custom was bound in sheaves, after the manner of wheat, and placed in shocks. In so doing, only the head of each sheaf was fed into the cylinder and the seed thus extracted after which the sheaf was cut open and thrown aside for hay without passing through the machine.

The crop of timothy seed thus obtained from the 80 acres was 547 bushels, which was shipped to Chicago last Friday and the price obtained is said to have been \$7 per bushel, or \$3529.

It is reported that about 100 tons of hay was also obtained in this crop which is being baled for shipment. In fact one car-load has already been shipped at a price said to have been \$27.50 per ton.

From these figures it would appear that of 80 acre crop for this year will bring a total something like \$6000, or \$75 per acre. Can you beat it.

PITTSVILLE

(From the Record.)

The big new barn of Wm. Hiles, north of the city about three miles, was struck by lightning this morning during the storm and burned to the ground. The building went quickly after being hit and it was with the greatest difficulty that the stock was gotten out. The barn, however, contained the hay for the winter's feeding amounting to about twenty tons. It was built last summer and was a big up-to-date building. It developed that the family with the exception of Mr. Hiles, who is sick, were in the barn doing the morning chores. They escaped injury with the exception of a young man who has been helping out on the farm who was stunned and had to be carried out of the barn.

R. Boynton, of Oshkosh, spent a few days last week in the city guest of many old acquaintances. He is another of the old timers of Pittsville's early days, having operated a mill and lumber camps in this vicinity. Mr. Boynton was the first mayor of the City of Pittsville. He is 95 years of age, and while weak, a might of a fellow, he is still active in his years, is still able to get about without help of anyone or anything except the conventional cane.

RUDOLPH

No Trip Thru! Rudolph Continued.
Wm. Dade has an up-to-date hardware store. He sells harnesses and repairs for all kinds of machinery.

P. Phillips from Milwaukee, has just came for Canada to Rudolph to look after his big farm.

ARPIN

There will be preaching at Arpin sabbath morning 10:30 by Rev. P. Peterson of Waukesha. Come out and hear him. He will preach at 2:30 p. m. at Pleasant Hill at 8 o'clock at Vesper in Goldaworthy's hall. His preaching is scriptural and very impressive. This is a little better weather for thrashing but the fellows who have to stay at home and pick pickles are about all humped up. The pickles grow about as fast as they can pick them.

N. J. Mann will hold a public meeting Aug. 29, and all who follow that have brush better buy his sheep. They cleaned up a fine piece of land for him.

Some from around here are attending the fair at Marshfield this week.

Mr. and Mrs. Wittingham spent the afternoon and evening at W. J. Manns.

Mr. and Mrs. Groumeire were shopping in Vesper last Saturday evening.

Things looked serious at Charles Tomforde's Thursday night Aug. 24, until the broom stick broke at the 41st block. After Mrs. Tomforde had no broom stick left things quieted down and the evening was enjoyed in dancing and when the neighbors departed they wished Charley would live 41 years longer in the neighborhood.

The surprise party at Alfred Groumeire's was well attended and all report a good time. Miss Della Groumeire returned home Friday to Germantown but Laura will stay and keep house for Alfred for some time.

The Pleasant Hill picnic had a thrashing machine on each side of it and was not as well attended as the boys and girls would like it was. A number of them come to the grove for dinner but had to hurry back.

There will be a play given at the church soon, the night has not been settled.

Pickles are growing here too.

Wm. Bardman is building a new house. Mr. Boukum has his new barn shingled.

Moon Will Relieve You.

—On Sept. 6th I will again come to Grand Rapids to relieve all who suffer. I am always anxious to meet with such ailments which others call incurable. I use no medicine, no knife as I do not believe in operations. Appendicitis and gall stones especially, should not be operated on, as they can easily be cured with moon treatments. No one should have an operation before consulting me, which will cost them nothing and the chances are they will be saved from that dreadful knife and expense.

NATURE TELLS YOU.

AS MANY A "GRAND RAPIDS READER KNOWS TOO WELL," When the kidneys are sick, Nature tells you all about it. The urine is nature's calendar. Infrequent or too frequent action: Any urinary trouble tells of kidney ills.

Grand Rapids people testify to their worth.

Mrs. Edward Mahoney, 477 First St. N., Grand Rapids Wis., says: I had an extreme lameness across my back and this was accompanied by pains in my kidneys. Whenever I lifted or stooped, my condition was worse. My kidneys were inactive and dizzy and nervous spells were common. Soon after I began taking Doan's Kidney Pills, I improved and before long this remedy restored my kidneys to a normal condition. I know that Doan's Kidney Pills can be depended upon to act just as represented.

Chas. Johnson, who has been in the livery business in this city for a great many years, held an auction sale last Saturday and succeeded in clearing out almost all of his entire stock. Mr. Johnson has decided to quit the livery business and leave the city but is not decided as yet just where he will go.

Now they are after the barkeeper who "souses" the beer glass used by one customer in a tank of stale water under the bar and then dishes up a bunch of "suds" in the same glass to the next man. It is said that the water in the tanks is allowed to stand for hours without change and the whole system is unsanitary and must go. Muzzing water must be used to rinse glasses.—Tomah Journal.

Within six months the Wisconsin tax commission will be ready to install a uniform system of accounts for any town, city, village or county. This is the result of several years of agitation by the commission and is the immediate effect of a new law drawn up by the commission which permits the installation of such a system of accounting at the request of any municipality. When so installed it must be retained.—Tomah Journal.

Mr. and Mrs. C. O. Obuse of Stanley, N. D., were pleasant callers at this office on Thursday. Mrs. Obuse having arrived in the city the day before from Stanley to join her husband who has been here for several weeks and together they expect to spend three weeks visiting among relatives and friends in the city and surrounding country. Since leaving here several years ago Mr. and Mrs. Obuse have been running a hotel at Stanley, their place having all modern conveniences and is known to the traveling public from Minneapolis to the coast as a good place to stop. From a financial standpoint Mr. and Mrs. Obuse and the children have all done well since leaving Grand Rapids, but expect to move back here again some day and make their home.

Ed. Smith spent Sunday with friends in Winona.

Mrs. O. Voyer of Junction City was a guest of Mrs. L. M. Nash on Saturday.

Mrs. Ed. Young returned on Saturday from a visit at the Frank Zoelle home at Madison.

Mr. and Mrs. George Sherman visited with relatives at Dexterville several days this week.

George Sanders of Minneapolis is a guest at the home of Mr. and Mrs. Fred Bossert for several days.

Dr. Frank Kiebusch of Wausau visited with friends in the city several days the past week.

George Witte, who is employed in a drug store in Chicago, is spending the week at his home in this city.

Mr. and Mrs. Bert Smith returned on Friday from a two weeks visit with Mr. Smith's parents at Tuscola, Ill.

Oasper Gurtler purchased the Geo. A. Connell home on Oak and Tenth Streets Monday. Consideration private.

Mrs. Angie Sexton of Monroe, Washington, is a guest at the home of Mr. and Mrs. John Bell Jr. for several weeks.

Mayor W. E. Wheelan departed on Friday for the northern lakes where he will spend several weeks, getting relief from a bad case of hay fever.

Mr. and Mrs. Will Meade and Mr. and Mrs. Jesse Kenyon returned last week from their two weeks outing at Boulder Lake. They report a most delightful time and plenty of good fishing.

Pool players are on hand at Guy Gots' new headquarters in the Tinnin & Briar building. There are only three tables ready for use but it is expected that the other three will be installed soon. Mr. Gots' tables are now in perfect order having been renovated at the Kandy plant.

Hereafter hawkers, peddlers and transient merchants must secure in addition to their regular licenses, a badge or number plate which must be carried in a conspicuous place when going from place to place. Heretofore peddlers and hawkers could say they had a license but they could not be apprehended before the facts could be ascertained from Madison. Now wagons and carts must have the official "W" number plate and foot peddlers must wear the official badge.

ITCHING SKIN QUICKLY COOLED.

Hot weather means skin trouble for many people, but now you can stop the itch instantly.

Just a few drops of the cooling and healing wintergreen lotion and the itch is gone—not in half an hour—not in ten minutes—but in five seconds.

This simple wash is known as D. D. D. Prescription for Eczema, and usually sells for \$1.00 a bottle, but now by special arrangement you can get trial size bottle for 25 cents. This will be enough to show you why we always recommend D. D. D. for all skin troubles. D. D. D. gives instant relief.

QUEER DISEASE IS IN UNITED STATES

Many Here Afflicted With Odd Ailment, Says Prof. Munyon.

GREWSOME CREATURES VERY COMMON, FINDS EXPERT.

Many people in the United States are afflicted with a queer disease, according to a statement yesterday by Professor James H. Munyon, maker of the following remarkable and rather gruesome statement:

"Many persons who come and write to my headquarters at 833 and Jefferson St., Philadelphia, Pa., think they are suffering from a simple stomach trouble when in reality they are the victims of an entirely different disease—that of tape worms. These worms are large internal parasites, which locate in the upper bowel and consume a large percentage of the nutriment in undigested food. They sometimes grow to a length of six inches to six feet. One may have a tape worm for years and never know the cause of his or her ill health.

"Persons who are suffering from one of these creatures become nervous, weak and irritable, and the least exertion, the use of worms rob one of attention and vitality and strength, but they are rarely fatal.

"The victim of this disease is apt to believe that he is suffering from chronic stomach trouble and that he has been without relief. This is not the fault of the physician, but the fault of the patient. He cannot sleep at night and often thinks he is suffering from nervous prostration.

"The most common symptom of this trouble is an abnormal appetite. At intervals the person feels hungry and cannot get enough to eat. At other times the very sight of food is loathsome. There is a growing feeling of nausea at the pit of the stomach, and the victim has longings for food of various kinds. He cannot sleep at night and often thinks he is suffering from nervous prostration.

"I have a treatment which has had wonderful success in eliminating these grewsome creatures from the system. In the course of its regular action it aids digestion, and ridding the blood, kidneys and liver of impurities has proven fatal to these great worms. It has a tape worm, this trouble will be gone in a few days. It is a simple matter to get rid of them, and I can assure you that I have cured thousands of them, and of course we cannot violate their confidence by giving their names to the public.

"Letters addressed to Professor James H. Munyon, 833 and Jefferson Streets, Philadelphia, Pa., will receive a careful attention as though the patient called in person. Medical advice and consultation absolutely free. Not a penny to pay.

Cement Talk No. 1

Buyers of Portland cement should remember that there are various brands of Portland cement on the market and that all Portland cement is not the same.

Every manufacturer prints on the sacks the name of the brand and the trade mark. If you find the trade mark printed above and the name Universal on the cement sacks, you may know it is the best Portland cement possible to make. Good concrete depends on good workmanship and good materials. Care and experience make for good workmanship. Good sand and gravel or crushed stone are obtainable quite cheaply. With these you may feel absolutely safe, if you use Universal Portland Cement. It is always uniform, of good color, great strength and works easily. If you need cement, use Universal. Most dealers handle Universal. If you do not, write us.

NOTES From MEADOWBROOK FARM

Young orchards should be cultivated.

Peas put back the fertility that the corn takes out.

Keep the land constantly at work growing some crop.

Head lice are the great drawback of chicks raised under hens.

Lima beans will require more manure than other beans or peas.

The tractor is going to be the newest and biggest help to the farmer.

The manure for peas, beans and onions should be fine, rich and well rotted.

The hens need lime and the best way to furnish it is to feed crushed oyster shells.

A uniform quality of dairy products whether it be milk, cream or butter, is always best.

Frequent watering of the teams during harvest is good insurance against sunstroke.

Good poultry can be raised and made to produce in close quarters of city and suburban lots.

Manure as well as fertilizers should be thoroughly mixed in the soil before drilling in the seed.

Do you ever give your horse a cool bath in summer? You know how good it feels when you bathe.

Hungarian grass seed sown in rich, mellow soil will mature and be fit to cut 60 days from germination of seed.

Some people claim that a hog is a scavenger by nature, but he certainly thrives better on clean feed and decent surroundings.

Propensity does not come by chance, but through years of proper breeding for certain characteristics and specific functions.

Many farmers do not have a supply of cabbage for winter because they neglect starting plants in midsummer for the fall crop.

Every inclosure for the hogs should be perfectly tight, and with excellent wire fences that are now manufactured this is an easy matter.

The silo is almost indispensable to the really up-to-date dairy, but silage is the best form in which to feed corn to sheep or to beef cattle.

A cow that is troubled with caked udder would better be fattened and sold to the butcher, if she has it once it may be worse the second time.

The average encephalitis raton is forty pounds per cow daily. This is seven and three-fifths tons per year. An acre will yield fifteen tons of silage.

Milk giving is a habit that responds to encouragement or neglect. It is a function which may develop or diminish by the treatment accorded the cow.

When acorns are fed pigs their flesh is apt to become very soft and oily; but this difficulty may be overcome by feeding corn for three weeks before slaughtering.

The water dishes should be filled early in the morning. Fowls drink as soon as they leave their roosts and water that has stood over night is never wholesome.

The Indian Runner ducks are not very good sitters, although they are often inclined to incubate. Their eggs are generally put into incubators or under hens for hatching.

There is no better feed for young pigs than fresh skimmed milk. It is also a good supplementary feed for brood sows, and, in fact, a good feed for hogs of all kinds and ages.

Spring pigs can get along very well without shelter except from rain until fall, then, if you are so shiftless as to fail to provide shelter they are better able to stand cold and rain.

When the sow is giving a warm, rich milk, the piglets will grow up healthy and strong. If the milk is poor, the piglets will be weak and thin.

Observations show that the most economical milk cow is the one which is naturally easy and thin-fleshed. The more bloated, the more she takes more feed to produce a pound of butterfat.

There is often the danger that the inexperienced milkman will feed too much. Remember there is a chance of being indigestible either through too free a use of the feed or by being too saving of it.

Keep up with your work in saving and applying the manure from your animals. The amount and kind of feed that will be available for them next year will depend largely upon the manure applied to the farm.

An excellent destroyer of lice is four ounces of powdered lard and two quarts of boiling water. Let stand till cool and apply to the affected parts with a sponge or coarse brush. One application is usually sufficient.

Eight thousand dollars' worth of pork saved from cholera is the record of the serum from one hog at the Missouri experiment station. More than 1,800 hogs were vaccinated with the serum. The hog was worth while.

The ideal place to store milk and cream is in a little tank between the pump and the stock tank. All the water that goes to the cattle must flow through here and naturally the milk is kept cool.

Before you buy foundation stock make a close study of the breeds and their adaptability and buy the kind that are adapted to your needs. Do not buy anything that is a sheep simply because it is a sheep.

Turkeys are good birds that, if they are well cared for, will grow up healthy and strong. If they are not, they will be weak and thin.

If the fowls are not allowed free range and alfalfa, meal and some high-grade beef scrap and pullets will be grown that will be a surprise with their strong, long bodies, well prepared to stand up to the year round and breed strong chicks for next year's crop.

One make the best grain ration for horses in summer.

Cows differ somewhat in the amount of roughage they will take.

In the care of chickens women prove their superiority over men.

Don't try to feed ten hogs in a trough only big enough for six.

In preparing birds for the show room women are more handy than men.

Watch out for worms in the hock they will cause lots of trouble and loss.

Feeding sour or sloppy food is one way of inviting bowel trouble in the young chick.

Opinions vary somewhat as yet as to the comparative feeding value of pea vine silage.

The farmer who keeps better poultry, or the best, is on the right road to a paying business.

Asparagus shoots should not be cut too late, as late cutting will injure the vitality of the roots.

The proper way to apply manure is to remove it from the stable directly to the field and spread it.

Impatience with the helper that is freshening for the first time is one sure way of spoiling the cow.

Do not attempt to raise fall pigs without having first prepared a perfect system of housing for the winter.

Tomatoes should be given the last working with cultivator and then bedded just before the vines fall over.

If dusty hay is fed, sprinkle with water and it will save the horse much annoyance; but better not feed it at all.

The greatest forage crop in the world is corn, and the silo is the most economical device for use in dishing it up.

Free range for hogs does not mean that they should be allowed to run in the highways and through the neighbors' fences.

American can produce as good mutton as England. We have the climate, the sheep and the feed. All we lack is the inclination.

Small manure applied to the ground fresh is much better than manure that has been weathered by standing in the barnyard.

All vegetables which require warm soil, as okra, beans, tomatoes and egg plant, should have warm manure and never much.

Farmers everywhere are looking for some economical way of maintaining the soil fertility or improving it. Dairying is the answer.

Fence corners full of dead woods make a fine hibernating place for all kinds of bugs which will get busy with your crop next spring.

The alfalfa farmer is not cutting as heavy a crop this year as ordinarily, but he is just as many days ahead of the alfalfa farmer as ever.

The man who is sincerely interested in his dairy work is pretty sure to be a prosperous dairyman and in his case the dairy business booms.

Small manure, mixed with ground phosphate and applied on the ground fresh, is vastly better as a fertilizer than manure in any other form.

We must fight the encroachment of the gutters on our hillside farms as we fight weeds. Both can be held in check and often entirely eliminated.

The cream from the milkings must not be kept so long that it will develop a sharp acid, for that would impart an unpleasant flavor to the butter.

Avoid frightening hens, especially on very warm days. An excessive fright is apt to cause apoplexy, or at best will prevent a normal production of eggs.

You would think the manufacturer of a foot would feed cotton into his mill and expect silk goods to be woven from it, and yet the hen is simply a machine.

Try the plan of flushing the eggs from now until breeding season, then follow with good pasture, and you will see from results that the plan makes most profits.

We need to have a clear idea of what breeding does, of what feeding does, of what care and environment do, if we secure and maintain a profitable dairy herd.

In order that a good horse may result the foal should not only be given a good start in life, but should be kept in healthful and thrifty condition through the growing stage.

Cabbage will continue to grow late in the fall if the ground is clean and the surface fine and loose. The same is true of celery, beets, carrots and some other hardy vegetables.

Lines of breeding which a century has developed and stamped with approval ought to prove safer than the theories of a single mind, made tangible in a few heterogeneous crosses.

The ideal place to store milk and cream is in a little tank between the pump and the stock tank. All the water that goes to the cattle must flow through here and naturally the milk is kept cool.

Before you buy foundation stock make a close study of the breeds and their adaptability and buy the kind that are adapted to your needs. Do not buy anything that is a sheep simply because it is a sheep.

"No Chickens for Sale"

By DONALD ALLEN

(Copyright, 1911, by Associated Literary Press.)

The same train that carried Miss Mildred Fryne up to her aunt's home at Long Point, spent the summer month also carried Mr. Winfield Chester. They sat in different coaches, however, and there was no coincidence about it. Had they sat in the same chair car he might have been reading a magazine and she looking out of the window.

A quarter of a mile below Aunt Taylor's house lived old Mrs. Ryder. She was a widow and lived alone, and now and then she had a bad turn with rheumatism. Miss Mildred had known her for several years, and it wasn't two hours after her arrival that she started out to see the old lady. She found her in bed and sadly needing nursing.

"What you need," gently replied the girl when she had heard the lamentations of the old lady, "is a better than all the doctors. I know at least a dozen people who'd have died but for chicken soup. Chicken soup with a little rice in it will make a well woman of you in two days."

"Maybe it might help me," the patient sighed.

"It will. It must. It cured me when I had typhoid fever, and the doctors had given me up. I can get the rice up at the house, but as for the chicken—let me see? We have none."

"But you are a gentleman—and you are a young man—and you must live in the city and how do you know? If I don't know how to dress a chicken why should you?"

"And now we take it outdoors," continued the young man with a smile, "and don't you see how easily the feathers come off? And while I'm holding the body over the flame of the stove for a minute you will please get the butcher knife. The chicken must be drawn and then cut up."

"But why do you help?" asked Miss Mildred.

"Because I feel sorry for Mrs. Ryder, and because you don't know how to dress a chicken. Now the knife, and don't you see how easily the feathers come off? And while I'm holding the body over the flame of the stove for a minute you will please get the butcher knife. The chicken must be drawn and then cut up."

HE'S THE ORIGINAL GROUCH

Surely Would Be Hard to Please Old Gentleman With This Kind of Disposition.

There is in Washington an old "grouch" whose son was graduated from Yale. When the young man came home at the end of the first term, he excited in the fact that he stood next to the head of his class. But the old gentleman was not satisfied.

"Next to the head!" he exclaimed. "What do you mean? I'd like to know what you think I'm sending you to college for? Next to the head? Why aren't you at the head, where you ought to be?"

At this the son was much crestfallen; but upon his return, he went about his work with such ambition that at the end of the term he found himself in the coveted place. When he went home that year he felt very proud. It would be great news for the old man.

When the announcement was made, the father contemplated his son for a few minutes in silence; then, with a shrug, he remarked:

"At the head of the class, eh? Well, that's the commentary on Yale university."—Lippincott's Magazine.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience. He is a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as a confidential. Many sensitively modest women write to Dr. Pierce, what they would shrink from telling to their local physician. The local physician is pretty sure to say that the patient do anything without an examination. Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands of women of the worst of cases.

OLD SHOES MADE NEW

By The New Electric Repair Outfit.

The genuine Goodyear Lock Stitch Sole Sewing Machine with a complete line of machines including the Bussell Edge Trimmer and the new Electric Heated Edge Setter has just been installed by Gleue Bros., incorporated, in the repair room of their store in the old Wood County National Bank building, opposite the postoffice.

These machines are all factory machines adapted to do new work and therefore able to furnish work such as no other machines on the market are competent to do. They will make an old shoe new again. The Goodyear Lock Stitch Sole Sewing Machine is the only machine used to make the well known Goodyear Welt shoe worn by sixty million people of this country and many millions of other countries.

This newly equipped repair shop wherein no money has been spared to make it one of the best in the country, will give Gleue Bros.' shop a decided advantage in taking care of their trade. Mr. Wm. Gleue, who has spent many years in manufacturing shoes, will be found ready at all times to show with pleasure the many details of this work, also the advantage gained by having your work done on these machines. Stop in and see him. Call up phone 239. Your work will be called for and delivered on short notice.

Deer hunting in the northern woods will be excellent next November. This proposition is based on reports of deputy state game wardens who are in the northern part of the state, who state that deer are unusually numerous this season. The season is from November 10th to 1st, and only one deer may be shot by each holder of a license. Partridges are also very numerous. The hunting season is from September 10th to December 1st.

Marshfield Herald.—Hon. Will Wheelan of Grand Rapids, when it comes to addressing a friend is lavish with words. Last week Landford Griffin received a letter from him addressed as follows: "Michael (Griffin) Esq., proprietor of the Thomas Elmer, Ex Sheriff of Wood county and next sheriff of Wood county, Marshfield, Wisconsin." Mr. Griffin acknowledges all the titles but the last one and hopes to be able to answer to that when the time comes.

"Bob" Frederick of Nekoma, who is billed for a boat with Little, of Milwaukee, in this city September first, was visiting friends here Saturday. The Nekoma athlete is in almost perfect condition and is still keeping up a good systematic training in his camp near Birch Lodge on the east side of the river. Bob says that he is doing fourteen miles of road work daily in addition to a wholesome amount of rowing, swimming, and that work, and still his weight hovers around the 200 mark. He intends to continue living out of doors until cold weather and then leave for Texas and New Mexico.

ITCHING SKIN QUICKLY COOLED.

Hot weather means skin trouble for many people, but now you can stop the itch instantly.

Just a few drops of the cooling and healing wintergreen lotion and the itch is gone—not in half an hour—not in ten minutes—but in five seconds.

This simple wash is known as D. D. D. Prescription for Eczema, and usually sells for \$1.00 a bottle, but now by special arrangement you can get trial size bottle for 25 cents. This will be enough to show you why we always recommend D. D. D. for all skin troubles. D. D. D. gives instant relief.

WHERE ARE YOU GOING THIS SUMMER?

If you contemplate a sojourn among the beautiful lakes or at any of the many delightful Resorts of Wisconsin, Northern Michigan, Minnesota, etc., you should have a copy of a booklet entitled "Lakes and Resorts of the Northwest" issued by the Chicago & North Western Ry. It is profusely illustrated and contains valuable information as to hotels and boarding houses, maps showing trails, portages, etc., etc. "Short Jaunts for Busy People" is another useful publication. Ask your Ticket Agent for copies or address A. C. Johnson, Passenger Traffic Manager, C. & N. W. Ry. Chicago, Ill.

Notice To Bidders For Sewer On Ninth Street.
NOTICE IS HEREBY GIVEN that the Board of Public Works of Grand Rapids, Wisconsin, are ready to receive and bid for the furnishing of all materials, tools, and all the labor and services, except the sewer pipe which is to be furnished by the city, necessary to construct four inch sewer on and Ninth Street north in the City of Grand Rapids, Wisconsin, strictly according to the plans and specifications hereunto referred to and to the satisfaction of the City Engineer when the bids are opened.

Sealed bids will be received by the Board of Public Works up to and including the 23rd day of September, 1911 at nine o'clock in the forenoon. All bids must be accompanied by a cash deposit of \$100.00, which will be returned to the bidder if the bid is not accepted, and retained by the Board of Public Works if the bid is accepted. The successful bidder must execute a bond for the full amount of the contract, and must commence work within ten days after the date of the award of the contract.

A certified check for ten per cent of the amount of the bid shall be enclosed with each proposal, the said check to be payable to the order of M. G. Gordon, City Clerk, of the City of Grand Rapids, Wisconsin, as evidence of good faith of the bidder. If bid is not accepted, the check will be returned. A bond will be required of the successful bidder in an amount equal to the amount of the proposal.

A contract for the work will be drawn without expense to the bidder by the City Attorney and will provide in substance that the bidder must furnish all materials, tools, implements, etc., and all the labor and services, except the sewer pipe which is to be furnished by the city on the street, and all the labor and services necessary to do all of said work strictly according to the plans and specifications hereunto referred to and to the satisfaction of the City Engineer when the bids are opened.

Payments will be made on the estimate of the City Engineer from time to time up to and including the 23rd day of September, 1911 at nine o'clock in the forenoon. The City reserves the right to reject any and all bids and the right to buy sewer pipe. Dated this 10th day of August, 1911.

Mrs. Lizzie D. Cronk and daughter Esther of South Superior are in the city for a week's visit with Mrs. Cronk's sister, Mrs. T. J. Cooper, after which Mrs. Cronk will return to Superior and serve as teacher for the ensuing year and Miss Esther will go to Wausau where she is engaged to teach next year.
Leifland Johnson, Fred Ragan and Neil Nash returned last week after an outing at Boulder Lake. The boys had a hair-raising tale concerning a cold, early morning tunnel between young Johnson and an eight pound muskellunge, which resulted in a sure head and a captured fish. The boys proved the story by exhibiting the fish to their friends.
Edward Young returned on Saturday from Spokane, Wash., where he has been employed for several months as an engineer in a saw mill. Mr. Young was very favorably impressed with the west, and reports everything is over done out there. He is under the impression that Wisconsin and especially Grand Rapids is good enough for him.

ALTDORF
Mr. and Mrs. Leon Jones of Seattle, Wash., are visiting at the O. J. Leo home. Mr. Jones is instructor of manual training in the Seattle schools. There was a very large attendance at the church fair last Sunday. The Altair baseball team played two games last Sunday. The first against a picked team from Cranmoor, Pittsville and Grand Rapids; the second against the married men. In the first game Altair was beaten by a score of 3 to 2; in the second they were beaten by a score of 8 to 7.

VanPatter to Quit Stevens Point
James VanPatter, Stevens Point, well known twirler, has resigned his position with the intention of going to Appleton at once to join the state league team.
This sudden resignation on "Van's" part will rob the Rapids of any further chances to face him this season. Today Cy Young, of the "Minny" league, will pitch for the Point against the home team, and local fans are anxious to get a look at the style of the new twirler. For the remainder of the season, Schinners, of Appleton, will be on the mound for the Point.

The Circus
Gollmar Brothers with their well known extensive line of side shows and animals, drew their morning and evening. In spite of the threatening weather, the parade appeared, as advertised, and the seats in the main tent were well filled at both performances.

The Store That Saves You Money

OLD SHOES MADE NEW
By The New Electric Repair Outfit.
The genuine Goodyear Lock Stitch Sole Sewing Machine with a complete line of machines including the Bussell Edge Trimmer and the new Electric Heated Edge Setter has just been installed by Gleue Bros., incorporated, in the repair room of their store in the old Wood County National Bank building, opposite the postoffice.

These machines are all factory machines adapted to do new work and therefore able to furnish work such as no other machines on the market are competent to do. They will make an old shoe new again. The Goodyear Lock Stitch Sole Sewing Machine is the only machine used to make the well known Goodyear Welt shoe worn by sixty million people of this country and many millions of other countries.

This newly equipped repair shop wherein no money has been spared to make it one of the best in the country, will give Gleue Bros.' shop a decided advantage in taking care of their trade. Mr. Wm. Gleue, who has spent many years in manufacturing shoes, will be found ready at all times to show with pleasure the many details of this work, also the advantage gained by having your work done on these machines. Stop in and see him. Call up phone 239. Your work will be called for and delivered on short notice.

Miss Clara Litke, who is employed at the Pfister Hotel at Milwaukee, is visiting with relatives in the city this week.

Miss Edna O'Brien of Tholmesville, who has been visiting with relatives in the city for several weeks, returned to her home on Tuesday, accompanied by Miss Maggie Nash, who will visit in Tholmesville and Milwaukee for some time.

Mrs. George Cole returned Friday after a six weeks trip in Canada, visiting friends and relatives at Hamilton, Toronto, and other places.

Mrs. Cole left Canada twenty years ago and reports a great change in the country during that time.

Messrs. Gotts and Woodell, who have had charge of the summer dances at the pavilion, announce that hereafter there will be no more Friday night dances. There will be one dance a week, which will be held every Tuesday night.

Mrs. Lizzie D. Cronk and daughter Esther of South Superior are in the city for a week's visit with Mrs. Cronk's sister, Mrs. J. J. Cooper, after which Mrs. Cronk will return to Superior and serve as teacher for the ensuing year and Miss Esther will go to Wausau, where she is engaged to teach next year.

Leiland Johnson, Fred Ragau and Neil Nash returned last week after an outing at Boulder Lake. The boys tell a hair-raising tale concerning a cold, early morning tussle between young Johnson and an eight pound muskellunge, which resulted in a sore hand and a captured fish. The boys proved the story by exhibiting the fish to their friends.

Edward Young returned on Saturday from Spokane, Wash., where he has been employed for several months as engineer in a saw mill. Mr. Young was not very favorably impressed with the west, and reports everything is over done out there. He is under the impression that Wisconsin and especially Grand Rapids is good enough for him.

Miss Carolyn Kuntz visited in Wautoma several days the past week. Miss Lillian Hansen has returned from a visit with Miss Margaret Nooney at Neeshah.

Mrs. Chas. Ratelle and children of Loyal are visiting at the home of her mother, Mrs. Oliver Dudley.

Fred Hartz of Merrill, formerly millwright at the Ellis Lumber Co.'s plant, but who now holds a similar position with the H. Stange Sash & Door Co. of Merrill, spent several days in the city this week, looking over the Ellis Lumber Co.'s saw mill.

Mr. Hartz expects to return next week, and put in a month overhauling the mill and getting things in shape for the next season's cut.

H. E. Sydow, proprietor of the west side flour and feed store, received a letter on Monday from his brother, R. C. Sydow, who has been living at Trenton, Neb., for a number of years, where he owns a 1000 acre farm, stating that everything has dried up out in that country, and that crops were a total failure. Mr. Sydow, like many others out there has had to move out of the country and sell off mostly all stock.

Frank Anderson, a former resident of Grand Rapids, and now of Cumberland, Wisconsin, has been visiting for a week at the home of Mr. and Mrs. Charles Ekeland. He is accompanied by his two daughters, Mrs. John C. Allen, of Minneapolis, and Mrs. George Ervin, of Cumberland. Mr. Anderson had not seen Grand Rapids since 1879 and he says that he hardly knew the place. He is well remembered by the pioneer lumbermen of this place.

Louis Nequette, who has been chief engineer at the Ellis plant for the past few years, will leave for Merrill the first of next month where he has accepted the position of chief engineer in the H. Stange Sash and Door plant. Mr. Nequette and family have made many friends during the time they have lived in this city, and all who know them will be sorry to hear of their intended departure.

Mr. Nequette's new position is a very good one and he says that he would not leave Grand Rapids were it not for the fact that the change means a far better situation.

KELLNER

Mr. and Mrs. Ernest Knipple and daughters Minnie and Alvina spent Sunday at Wild Rose visiting relatives.

Rev. A. Krasche is attending a conference at Wausau this week.

Mrs. Allen and Rudolph Timm sold their farms to parties from Grays Lake, Iowa. B. J. Lofels brought them up.

The C. & N. W. bridge crew completed their work on this section and have moved to Wautoma.

Mrs. Hilmar and children of your city visited with the F. J. Rieckhoff family last week.

There will be no services at the Lutheran church as Rev. A. Krasche will be at Vesper on professional duty.

From 10,000 to 12,000 pounds of pickles are hauled to your city from here weekly. G. H. Munroe is the local buyer.

There will be plenty of chickens for hunters this fall on the big marsh. It is reported by some folks that a flock consisting from 50 to 100 chickens are seen daily. Probably this is a fish story but I think it is a chicken story.

Mr. and Mrs. H. Rieckhoff are the happy parents of a baby girl which was born August 14th.

Mr. and Mrs. R. M. Burroughs and daughters Mabel and Mary of Nekosia spent Sunday with the G. H. Munroe family.

ALTDORF

Mr. and Mrs. Leon Jones of Seattle, Wash., are visiting at the O. J. Lea home. Mr. Jones is instructor of manual training in the Seattle schools.

There was a very large attendance at the church fair last Sunday.

The Altendorf baseball team played two games last Sunday. The first against a picked team from Cranmoor, Pittsville and Grand Rapids; the second against the married men.

In the first game Altendorf was beaten by a score of 3 to 2; in the second they were beaten by a score of 8 to 7.

Prof. G. J. Baker, of the Minnesota Agricultural College, and wife are spending a week's outing on Mr. Baker's farm on Hemlock. They spent Tuesday at the home of O. J. Lea, Mr. Baker being a former pupil of Mr. Lea's.

Who says we can't raise corn up here when Golden Glow and Wisconsin No. 8 are ripe by the 20th of August? Silo filling is the order of the day now.

By the two fires that occurred last week, Geo. Bushmaker of Rudolph received nearly \$700 and Wm. H. Iles of Wood a little over \$1000 as damages.

Mr. Surprison and family have been visiting at the home of Mrs. Carl Gash and Robert Lea.

James K. P. Hiles was a business visitor here the fore part of the week.

Cranberry time has commenced in Altendorf. The first dancing party given to hire players was held at the Jacob Searls marsh.

Misses Helen and Anna Kubisiak, Anna and Ruth Henderson, Vera Worland and Gustie Hills spent Sunday at the L. Kock home.

RUDOLPH

Mose Sharkey hauled the lumber for his new house from the cars Monday. It came from Mosinee.

Mr. and Mrs. Geo. Baker, Sr., Mrs. Geo. Baker, Jr., and four children of Grand Rapids spent Sunday with the Nick Ratelle family and enjoyed a little roast pig.

Mrs. Eveline Croteau returned from a visit in Eau Claire and Marshfield.

During a heavy electrical storm Monday evening the barn of Joe Bucher was struck by lightning and burned to the ground with hay. They saved one stack of hay and the grain stacks.

Norma and Armetta Bude went to Nekosia Saturday noon and visited until Monday evening at the Wittenburg home.

The many friends of Mr. and Mrs. Will Fogarty of St. Paul, Minn., will be pained to hear of the death of their four months old baby boy who died Aug. 6th. They have the sympathy of this community and Grand Rapids, where she will be remembered as Miss Arabell Fogarty.

Mr. and Mrs. W. J. Clark entertained their son, Rollin, wife and baby of Coloma. Mr. and Mrs. Arthur Kockwood of Grand Rapids and Mr. and Mrs. Irvin Whitmore and children of Port Edwards all were here Sunday.

Misses Alice Rogers and Bertha Ballard of Stevens Point, spent several days last week with Mrs. Kamel Marceau. They returned home Monday.

Oliver Dudley of Grand Rapids lost his driving horse one day last week while on his farm in south Rudolph. It seems the horse rolled over and when he got up his leg was broken and he had to be shot.

The hum of the threshing machine is now heard in our midst.

Arthur Clark and Raymond Croteau returned home Thursday from Lake Villa, Ill., where they had been for some time.

Henry McCann of Michigan was a caller up here last Wednesday between trains.

Fred Schultz's baby is quite sick. Dr. and Mrs. Jackson, Mr. and Mrs. A. J. Kujawa, went to Stevens Point Sunday afternoon in the doctor's auto.

Fred Schultz is entertaining some of his folks this week.

A good many from here attended the circus in Grand Rapids Wednesday.

Mrs. Geo. Elliott and Mary Grab were in Grand Rapids Thursday.

Nick Ratelle and Dave Sharkey attended the fair in Stevens Point Thursday.

Selma Kruger of Grand Rapids visited friends up here several days last week.

Mrs. Simoon Croteau returned Friday from Eau Claire where she has been visiting with her son, Ernest Croteau and her daughter, Mrs. Geo. Fisher.

Oliver Dudley's fine driving horse broke one of its legs one day last week while rolling in Mr. Dudley's field and had to be shot. Mr. Dudley prized the horse very highly.

SENECA

Geo. Firman has rented his farm to Linnean Bros. of Janesville and intends to move to Grand Rapids to live in a few weeks.

There will be a special meeting of the people of this town on Monday, August 28, at the town hall, to vote on the question whether the town wants to raise \$400, to comply with the state road commission to secure county and state aid for 1912. Vote will be taken at 10:30 sharp.

"Bag Limits" Changed.

There is a decided decrease in the number of game birds which may be shot by one person in a day, according to the new game law in regard to the "bag limits." Following is a tabulated comparison of the old and new laws:

The genuine Goodyear Lock Stitch Sole Sewing Machine with a complete line of machines including the Bussell Edge Trimmer and the new Electric Heated Edge Setter has just been installed by Gleue Bros., incorporated, in the repair room of their store in the old Wood County National Bank building, opposite the postoffice.

These machines are all factory machines adapted to do new work and therefore able to furnish work such as no other machines on the market are competent to do. They will make an old shoe new again. The Goodyear Lock Stitch Sole Sewing Machine is the only machine used to make the well known Goodyear Welt shoe worn by sixty million people of this country and many millions of other countries.

This newly equipped repair shop wherein no money has been spared to make it one of the best in the country, will give Gleue Bros.' shop a decided advantage in taking care of their trade. Mr. Wm. Gleue, who has spent many years in manufacturing shoes, will be found ready at all times to show with pleasure the many details of this work, also the advantage gained by having your work done on these machines. Stop in and see him. Call up phone 239. Your work will be called for and delivered on short notice.
